Rolling Stock cable specifications were studied in order to find cable that would be able to do vital work that is required. In particular, the following cables for railway application:

- 1.5mm² grey halogen free 500V
- 2.5mm² grey halogen free 500V
- 25mm² green grey halogen free 500V
- 50mm² 3Kva red rubber insulated

our cables are used extensively in railways
